- **About Max Energy**
- **Vision, Mission, Core Values and Objectives**
- **Share Holding Structure**

About Max Energy

- Max Energy was founded in June 2010 with twelve filling stations following approval from Myanmar's National Privatization Commission for the private distribution of diesel and petroleum products in Myanmar. Max Energy is also one of the strategic business units of the Max Myanmar Group; **an integrated energy supplier dealing in the retail and wholesales of imported petroleum products.**
- Max Energy's **petroleum products are competitively priced, and quality is assured** by reputable international surveyor organizations. Utilizing advanced dispenser machines, quantities are always precise. Customer service is deemed excellent, and **customer satisfaction is consistently high**; brand image is of paramount importance to Max Energy.
- Its 78 filling stations are **conveniently located and strategically distributed across major cities and on major automobile routes** throughout the country. Operations are 24-hours a day and staff are comparatively well trained. Max Energy has additional of land which would be suitable for filling stations and all are strategically located around Myanmar.

- To be a leading fuel service company and to be recognized as a reputable brand in Myanmar fuel industry for delivery on our commitments, embracing new opportunities and adding value to our customers, shareholders and community.

- To create a working environment where people are motivated to excel.
- To provide a service and product of excellence.
- To be reliable, professional, driven and highly competitive.
- To grow assets and increase productivity by leveraging on technology, creating a culture of continuous improvement.
- To be an environmentally responsible organization for future growth through good corporate governance and sustainable business practices.

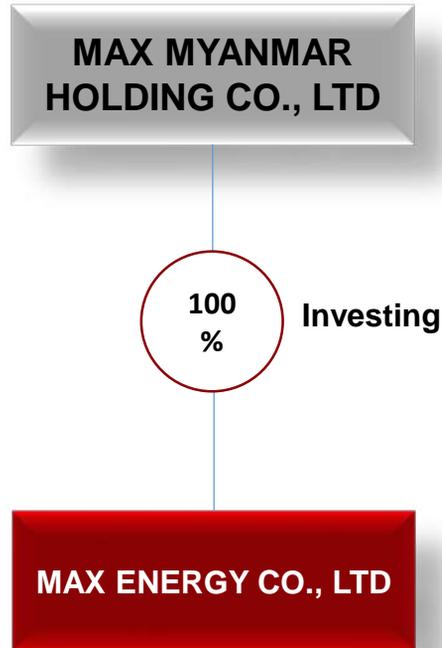

- Excellence – Do things best in every aspect
- Quality – Provide best quality products and service
- Trust – Be integrity in all what we do

OBJECTIVE

- To build a strong brand name of Max Energy in Myanmar Fuel Energy Market.
- To effectively distribute high-quality fuel products imported from abroad to consumers and other users.
- To provide valued-added service to customers in order to achieve customers' satisfaction.
- To create better job opportunities for younger generation to enhance their personal lives and living standards.
- To contribute positively in social causes that would benefit company employees in particular and society in general.

Products and Services

All of our products are imported directly from Singapore. Both Quality Test and Quantity Survey in-line with international standard in loading ports of overseas countries and discharging port in Myanmar. The Quality Test and Quantity Survey are carried out by reputable surveyor organization such as SGS Singapore/ Intertek Singapore and local government organization MPPE (Myanmar Petroleum Products Enterprise). Furthermore, Max Energy's internal Inspection Team performs regular spot checks on both the quality and the quantity of its products.

The superior quality of Max Energy filling stations is also a tangible consumer experience: kiosks are clean, built to a high standard, and there is a consistently high level of customer service.

Max Energy delivers the best service to value customers across Myanmar. Our filling stations operate 24/7 for the sake of customers' convenience. We always concern, respect and fulfill requirements as well as expectation of our customers.

Sustainable Development

- Sustainable Development Goals
- Corporate Social Responsibility
- Contact Us

Sustainable Development Goals

As a UNGC member, Max Energy is always following the development guidelines which was stated at the United Nations Conference on Sustainable Development. Therefore, we are continuously focusing on three pillars: economy, society and the environment to create better future.

Initiative	SDG-Related Goals	KPI
Economic	No Poverty & No Hunger	• To create more Job Opportunities
	Good Health & Well Being	• To create safe working zone • To give more safety training and awareness
	Decent work & Economic Growth	• To enhance productivity of staff
	Industry Innovation & Infrastructure	• To develop Digital Dashboard (Power BI)
Social	Gender Equality & Reduce inequalities	• To create more equal working environment
	Quality Education	• To produce more well-trained staff
	Partnership for the Goals	• To collaborate with Max Myanmar Holding Co., Ltd. and Ayeyarwady Foundation
	Sustainable Communities	• To build proper Governance structure and reporting • To engage more with UNGC, MPTA, SAM and other associations
Environment	Life on Land	• To plant more trees.
	Affordable and Clean Energy	• To build more EV stations
	Climate Action	• To use more solar energy
	Responsible consumption and production	• To sell quality assurance products

Corporate Social Responsibility

As one of the Max Energy mission is to be a responsible organization for future growth through good corporate governance and sustainable business practices, we have been committed to Corporate Social Responsibility since the establishment of Max Energy by not only being a family member of Ayeyarwady Foundation but also following the guideline of United Nations Global Compact (UNGC).

Education

Max Energy is committed to implement capacity development programs for our employees. Moreover, we are supporting the people who are employee's children, University distance education students and basic education students for their study.

Health

Max Energy is taking emphasis on health care activities so as to create safest and healthiest working zones. Also, we are always seeking the opportunities to embrace in health care matters as a helping hand in a given society.

Donation

As a responsible company, we are always ready to contribute to our society not as a charity group but as a socially responsible organization for better future together with Ayeyarwady Foundation.

Environment

One of the organization's aims has always been protecting the environment by providing lower Sulphur content products, encouraging recycle initiatives and inspiring to create green environment.

Max Energy support to the group's socio-civic work through its CSR arm of the AYA Foundation, a non-profitable organization with the aim to help and support the people of Myanmar. As the COVID-19 outbreak becomes more widespread globally, AYA Foundation together with Max Myanmar Group and AFG Group contributed financial support for medical aids including medical supplies, hospital equipment and preventive materials at Waibargi Hospital, Yankin Children Hospital and the Thuwanna Quarantine Facility.

We, Max Energy assisted the AYA Foundation with volunteers, not only top management but also staff, from the company at the Ayeyarwady Center. Covid-19 Temporary Treatment Center at Thuwanna. Moreover, **Max Energy donated fuel contribution which is equivalent for 7.7 millions liters** for all Ambulances during the COVID-19 outbreak period and supported fuel discount to the **Health Care staffs, Taxies and other vehicles of philanthropy organizations.**

Myanmar's Ministry of Health and Sports have joined this privately enacted goodwill and supports the efforts of **Max Energy, Max Myanmar Group and AYA Financial Group.**
